The purchase of the Firearms Training System judgmental and range target simulator is an acquisition that enhances firearms training for the Fort Wayne Police Department.

There is no area of law enforcement that produces any greater scrutiny than the issue of police use of deadly force, especially with a firearm. The Fort Wayne Police Department requires quarterly qualifications with firearms by all sworn members of our agency. Due to emerging trends in the litigation of police action shootings, it has become very obvious that training in judgmental shooting decisions must be required of our officers. The Firearms Training System maximizes our ability to train our officers in "shoot-don't shoot" decisions, as well as review other shooting related topics.

As a regional training site, it was also important to utilize training equipment consistent with that used by the Indiana Law Enforcement Academy at Plainfield. Firearms Training System is compatible with the I.L.E.A. system. The video disks used with I.L.E.A.'s system can be utilized with the system under consideration. This inter-changeability will allow our agency to purchase video scenarios different from I.L.E.A.'s and exchange video disks as desired.

This system would also ensure regional training to be consistent with that of the Indiana Law Enforcement Academy.

I urge your approval of this acquisition.

Thank you.

IF NOT LOWEST, WHO WAS AND WHY WERE THEY NOT AWARDED:

EFFECT OF PASSAGE: The firearms training system is a state of the art judgmental and range target simulator. It allows judgmental deadly force shooting scenarios to be encountered to review proper judgement adherence to F.W.P.D. deadly force shooting procedures and evaluation of proper technique.
